Imaging Support Task, October 2003—Title: WMO Pub. No. 47 (1955-72)

Series reference information: WMO (World Meteorological Organization), 1955-: *International List of Selected, Supplementary and Auxiliary Ships*. WMO No. 47, Geneva, Switzerland. (Serial publication; recently annual. Editions prior to 1966 were titled *International List of Selected and Supplementary Ships*.)

Task background: Prior to the 1973 edition, WMO publication No. 47 (1955-) was published and previously available only in paper form. This project imaged all the editions and supplements that could be located at WMO and from other international sources (Table 1). Reproduced by permission of the World Meteorological Organization. We gratefully acknowledge the assistance of the Japan Meteorological Agency (JMA) and the UK Met Office in providing photocopies of two editions.

Table 1: Editions and supplements of WMO No. 47 imaged for this task. Only one original supplement was located (1964s); it is not known whether any additional supplements were issued. The individual document contained in this file is shaded in the table.

INTRODUCTION

On the recommendation of the Commission for Maritime Meteorology, Recommendation 2(CMM-I), and the Commission for Synoptic Meteorology, Recommendation 53(CSM-I), the Executive Committee directed the Secretary-General, Resolution 31 (EC-IV), to publish an "International List of Selected and Supplementary Ships". This first edition of the publication is based upon data, valid on 1 January 1955, received from directors of meteorological services concerned.

The publication will be issued once a year, and will be based upon data valid on 1 January of the year of issue.

INTRODUCTION

Sur la recommandation de la Commission de Météorologie Maritime, Recommandation 2 (CMM-I), et de la Commission de Météorologie Synoptique, Recommandation 53(CMS-I), le Comité exécutif a chargé le Secrétaire général de publier une "Liste internationale de navires sélectionnés et supplémentaires". La première édition de cette publication est fondée sur des données valables au 1er janvier 1955, fournies par les directeurs des Services météorologiques en cause.

La publication paraîtra une fois par an, chaque édition étant basée sur des données valables au 1er janvier de l'année de parution.
