Imaging Support Task, October 2003—Title: WMO Pub. No. 47 (1955-72)

Series reference information: WMO (World Meteorological Organization), 1955-: *International List of Selected, Supplementary and Auxiliary Ships*. WMO No. 47, Geneva, Switzerland. (Serial publication; recently annual. Editions prior to 1966 were titled *International List of Selected and Supplementary Ships*.)

Task background: Prior to the 1973 edition, WMO publication No. 47 (1955-) was published and previously available only in paper form. This project imaged all the editions and supplements that could be located at WMO and from other international sources (Table 1). Reproduced by permission of the World Meteorological Organization. We gratefully acknowledge the assistance of the Japan Meteorological Agency (JMA) and the UK Met Office in providing photocopies of two editions.

Table 1: Editions and supplements of WMO No. 47 imaged for this task. Only one original supplement was located (1964s); it is not known whether any additional supplements were issued. The individual document contained in this file is shaded in the table.

INTRODUCTION

This edition of the "International List of Selected, Supplementary and Auxiliary ships" contains information provided by Members in accordance with Regulations 2.6.1.6 and 2.6.1.7 of the Technical Regulations of the World Meteorological Organization. Full use has been made of modern processing techniques to ensure the timely and speedy editing of the new version. At the same time, these techniques permit the available data to be fully applied in the development of the World Weather Watch System, particularly that part which concerns meteorological observations from ocean areas.

The presentation of the edition is similar to that of the tenth edition of 1966 and again features a loose-leaf binding for easier annual up-dating. However, it differs slightly from the previous one in containing a summary table (page II) which reflects the actual state of Members' participation in the WMO Voluntary observing ship's scheme.

INTRODUCTION

L'édition de la "Liste internationale de navires sélectionnés, supplémentaires et auxiliaires" contient les renseignements fournis par les Membres conformément aux Règles 2.6.1.6 et 2.6.1.7 du Règlement technique de l'Organisation Météorologique Mondiale. Il a été tiré pleinement parti des techniques modernes de l'informatique pour assurer l'impression rapide et régulière de la nouvelle version. Ces techniques offrent par ailleurs la possibilité d'utiliser au maximum les données disponibles pour la mise en oeuvre du plan de la Veille météorologique mondiale, particulièrement en ce qui concerne les observations météorologiques en provenance des zones océaniques.

La présentation de cette édition est semblable à celle de la dixième édition de 1966. Afin de faciliter la tenue à jour annuelle de la publication on a conservé le système de reliure à feuillets mobiles. Cependant on a inséré dans d'édition un tableau récapitulatif qui reflète l'état actuel de la participation des Membres au Système de navires d'observation bénévoles de l'OMM.
